

# FLS-R Series Flail Mower

The BULLY FLS-R Series Flail Mowers are designed for hobby farmers with compact and subcompact tractors, ranging from 15 to 30hp. Equipped with a gearbox that incorporates a freewheel, these mowers produce a high rotor speed of 2,600rpm, resulting in a superior cut on lawns, parklands and smallholding farms.

The BULLY FLS-R Series Mower is the perfect choice for mulch-mowing applications with smaller debris. It efficiently handles sticks and twigs less than 10mm in diameter, making it ideal for achieving a clean and precise mulching result.

Code	TFLS-R105	TFLS-R125	TFLS-R145
Size reference	1.05m   3'6"   41"	1.25m   4'1"   49"	1.45m   4'9"   57"
Belts	Three (3) XPA type		
Gearbox	30hp, 540rpm with freewheel		
PTO shaft	Series 4		
Rotor swing dia. (mm)	280		
Rotor diameter (mm)	76		
Rotor speed (rpm)	2600		
Type of flail	Hammer standard   'Y' blades on request
