

UM Series Rotary Hoe

BULLY UM Series Rotary Hoes are medium-duty gear drive implements designed for tractors with a range of 35 to 50hp. Offering features and accessories that are typically only found in high-end implements, they are the perfect choice for medium-sized farms, garden plots or semi-commercial operations where usage is sporadic.

Designed with precision in Europe, our forward-action rotary hoe features a smart blade design. The six blades are mounted in a staggered speed configuration, creating a harmonious balance between power and efficiency.

Tackle tough soil conditions with confidence, as this rotary hoe is equipped with a reliable friction clutch for gearbox and transmission protection during demanding tasks. The chain-supported rear deflector is self-levelling, leaving a smooth finish after each use.

Code	TBUM60	TBUM72
Size reference	1.5m 5'0" 60"	1.8m 6'0" 72"
Gearbox	50hp, 540rpm, single speed	
PTO shaft/clutch	Series 4 with 150mm (6") friction clutch
